HIKVISION®

HIKVISION UNAUTHORIZED DISTRIBUTORS POLICY

Hikvision USA Inc., and Hikvision Canada Inc., sells products only through authorized distributors. We value our industry partners and are proud of the relationships we have developed to help expand the use of our innovative technology products and solutions. These authorized distributors have committed to serve as a link in the Hikvision USA and Hikvision Canada value chain by providing excellent pre- and post-sale customer service, including full firmware and sales engineering support.

Not every distributor advertising Hikvision products has been authorized by Hikvision USA and Hikvision Canada to advertise or sell those products. We warn potential customers against purchasing these "gray market" products from unauthorized distributors. Unauthorized distributors may be selling counterfeit, used, or damaged product. Much of the products sold by unauthorized distributors have been altered with modified firmware. Since this means that it is no longer in original factory condition, Hikvision warranty is void, per company policy.

We warn potential customers against purchasing from unauthorized distributors. Purchasing through authorized Hikvision USA and Hikvision Canada distributors ensures that you receive the benefits of technical support, project registration, dealer loyalty programs and advance replacement of any camera, recorder, monitor, video server, or software, in addition to Hikvision USA and Hikvision Canada's full warranty. Additionally, products purchased through authorized distribution partners have additional features and capabilities that distinguish the North American offering.

If you have any questions or concerns about the official status of your Hikvision distributor before your purchase, please contact Hikvision USA and Hikvision Canada Customer Service at csr.usa@hikvision.com to confirm their authorized status.

Thank you for your continued support of our industry-leading video surveillance products.

ABOUT HIKVISION

It started with cutting-edge technology: high-definition IP cameras, digital video servers, hybrid and standalone DVRs, NVRs, speed domes, encoders, and decoders.

Fortified by one of the largest R&D teams in the video surveillance industry, the innovation behind these products quickly made Hikvision the No. 1 video surveillance equipment provider in the world, according to IHS Markit. A total solution provider, Hikvision manufactures a full suite of video surveillance products and solutions for a broad range of vertical markets, including retail, education, and many others. Whatever the scope or requirements of the application, Hikvision has a user-friendly, highly scalable product to meet those needs.

**THE ART/OF
VIDEO
SURVEILLANCE**

Hikvision is an arrangement of creative minds and talents working in harmony to bring the most advanced solutions to the security industry. Much like our surveillance technologies that operate as part of a larger infrastructure, our teams collaborate to create an ensemble that is greater than the sum of its parts. There is an artistry that goes into becoming the world's leading supplier of video surveillance equipment. We call this the Art of Video Surveillance.

DEALER PARTNER PROGRAM

The company's remarkable accomplishments in North America speak to more than just top-tier products. Hikvision firmly believes that a company's success depends on superior customer support.

From inside sales to engineering support, from customer service to technical support, Hikvision goes the extra mile to provide customers with all of the elements they need for a first-class security system. Hikvision's Dealer Partner program and A&E program provide additional resources for dealers and architects and engineers to help promote business success through knowledge and valuable tools. Hikvision is committed to protecting and creating business value for its customers.

To learn more about our Partner programs, please contact us at partners.usa@hikvision.com

Real Value to Integrator Partners

Hikvision has a highly experienced team of sales, engineering, and technical support professionals that specialize in their local markets.

RETAIL

Shop and restaurant owners have peace of mind when using Hikvision's high performing products, which are aesthetically pleasing to boot. In each camera category are compact bullet, turret, dome and covert varieties, which provide discreet surveillance in attractive packaging. POS integration, heat mapping, and special counting cameras provide significant business management information. Data collected can then be managed through Hikvision's smart recording equipment.

EDUCATION

Protection of your loved ones is one of Hikvision's highest priorities. Budget-minded school districts find Hikvision's product selection unmatched in the industry. High-resolution cameras offer excellent image quality with high value for a market-leading price. Image enhancements, such as wide dynamic range and high definition video, make our products well suited to capture remarkable detail in exterior and interior settings.

CRITICAL INFRASTRUCTURE

Hikvision's Smart Series and Specialty cameras offer performance and features that are ideal for critical security installations. Resolutions of 12 MP, 8 MP (4K), 6 MP and more deliver detailed video images. DarkFighter and LightFighter solutions provide clear images in any lighting condition. Stainless-steel, high impact and weather-rated cameras withstand harsh environments. Built-in smart analytics provide pre- and post-event details. Data recording and storage products keep records safe and ready for forensic research. Every critical infrastructure setting has its own set of needs. With Hikvision products, these needs are all met.

Meeting the Needs of the Education Market

Architects and engineers (A&Es), as well as other consultants, are important players in the education market. They work directly with a school system after the need for a new project has been identified, whether it's a new system in an existing school or even a new school. Manufacturers like Hikvision work closely with the A&E community to educate them on available technology choices and how they can fit in an education project. In some cases, architects include specific product choices in their system and facility designs.

Several choices for networked IP products

Smart Pro IP Solutions

The Smart Pro IP solutions are an ideal option for professional applications, as they bring intelligence, efficiency, and convenience to video surveillance. The DarkFighter and LightFighter IP cameras provide outstanding image quality in challenging lighting environments. Camera styles vary from indoor and outdoor domes, bullets, turrets, covert, fisheye models, and various PTZ options. Key features include high resolution up to 12 MP, 180° panoramic viewing, smart analytics, and H.264+ compression. With so many options, the Smart Pro Series can easily meet the high performance and storage requirements of enterprise projects.

Value Plus Series and Value Series

Hikvision announces a new line of cameras featuring its latest compression technology: H.265+ (page 22). This advanced compression captures surveillance video using a decreased bitrate, reducing bandwidth requirements and storage costs. Hikvision's H.265+ is a truly optimized encoding technology based on the standard H.265/HEVC compression, extending the limits of ultra-HD video surveillance applications. This new line of cameras includes 2-, 3-, 5- and 8-MP resolution models. Also new is the improved IR technology EXIR 2.0 along with new low-light technology, 120 dB WDR, Smart analytics, and IP67 protection. Hikvision continues to advance industry technology with the Art of Video Surveillance.

High Definition 12 MP Cameras For Superior Detailed Imaging

Hikvision's new 12 MP High Definition (HD) cameras provide an amazing 4000x3000 pixel array for superior image definition and color rendition. Included in the line are the [DS-2CD4AC5F-IZH](#) Bullet camera with built-in motorized zoom lens, 120dB Wide Dynamic Range and EXIR IR illumination up to 50 meters (165 ft). An outdoor Dome camera, model [DS-2CD45C5F-IZH](#) also with motorized zoom lens and IR illumination up to 40 meters (130 ft). And the [DS-2CD63C2F-IV](#) Fisheye which offers full 180° and 360°(wall mounted) viewing. A stunning set of HD cameras well-suited to the most demanding applications where detailed images and clear identification of subjects is a must.

A close companion product is our new I-Series Pro and Value NVRs, which are reliable additions to IP security systems that require ultra high performance at an economic price. These NVRs support recording of up to 12 MP camera resolution, Ultra High Definition (UHD) output up to 4K, and up to 24 TB storage capacity. The recorder offers up to four SATA interfaces and one eSATA interface for recording and backup. It features Hikvision's unique optimized H.264+, H.265 and H.265+ compression, increasing storage space by 50-70%.

FEATURED PRODUCT

4K (8 MP) Smart PTZ Dome with Extended IR

< [DS-2DF8836I5V-AELW](#)

After winning last year's 2016 ISC West New Product Showcase with the DS-2DF8836IV-AELW, Hikvision has introduced a longer range IR version capable of extending the nighttime reach of the PTZ's 36x lens to more than 1500 feet. Featuring laser IR illumination, the new DS-2DF8836I5V-AELW Ultra HD Smart PTZ dome provides many industry leading benefits, including Ultra HD 4K image detail in real time (30fps), Defog capability to improve imaging in foggy conditions, advanced Smart Suite analytics and Smart Tracking. The onboard VCA (video content analysis) includes line cross, intrusion, region entrance/exit and can send immediate alerts or trigger recording when events occur. Region of Interest encoding increases the camera's efficiency and can reduce storage and bandwidth requirements, making this camera as useful as it is cutting edge.

Specialty Camera Solutions

Part of our Smart/Pro series, Hikvision is proud to introduce its first line of Specialty Camera Solutions. Intended to bring Hikvision's advanced technology capabilities to the North American market, these specialized camera systems will add to Hikvision's wide selection of innovative solutions. This means more options for end users and more business opportunities for our customers.

Whether it is a coastline or food processing site, airport or highway, solar farm or critical infrastructure, Hikvision is committed to delivering solutions for demanding applications. Our specialty line also features advanced analytics and all of the smart essentials Hikvision customers have come to expect.

We invite you to explore these new product offerings and expand your business when you provide your customers with more options. Talk to your Hikvision representative, or visit our website for more information.

Thermal Camera Systems

Hikvision's Thermal Network Camera systems are designed for critical lowlight applications, including high security perimeters. These systems feature advanced analytics, including line cross, intrusion detection, and region entrance/exit, temperature exception alarms, and advanced fire detection.

The [DS-2TD2136 and DS-2TD2166 Series](#) Network Thermal Bullet Camera systems feature 384x288 or 640x512 resolution uncooled VOx (Vanadium Oxide) sensors with multiple lens options.

The [DS-2TD2235 Series](#) Network Bi-Spectrum Thermal/Optical Camera systems feature a 384x288 resolution uncooled VOx (Vanadium Oxide) sensor side-by-side with a 2 MP CMOS true Day/Night camera with matched FOV lens and 120 meter IR capability. With two unique cameras in the same enclosure, the DS-2TD2235 series reduces installation and infrastructure costs.

The [DS-2TD4035 Series](#) Network Bi-Spectrum Thermal/Optical PTZ Camera systems feature a 2 MP D/N camera (30x zoom/150 meter IR) and 384x288 resolution thermal. These cameras capture targets in any lighting condition, while the visible camera zooms to provide corresponding information - all in one easy to install package.

The [DS-2TD6135 and DS-2TD6166 Series](#) Network Bi-Spectrum Thermal/Optical PTZ Camera systems provide longer range thermal/optical capabilities.

OVERVIEW

Blazer Express and HikCentral

Blazer Express

A new, intelligent video management station, Blazer focuses on managing Hikvision IP cameras with the following key features:

- Windows-based NVR with the operating system on an SSD (Solid State Drive)
- 16- or 32-camera options with 16 built-in POE inputs for IP cameras, and up to 24 TB of onboard storage
- Central management, with live view and playback from up to 15 remote NVRs or Blazers
- Powerful Client Station with video analytic searches and POS integration

HikCentral

HikCentral is a Central Management Software (CMS) pre-loaded on a Windows-based server. Designed for central management of distributed sites, or large pool of cameras recording on Hikvision NVRs, DVRs & CVRs, HikCentral:

- Offers seamless management of 3,000 cameras per CMS
- Remote Server Manager (RSM) can be added to 100k+ cameras (available August 2017)
- Provides advanced user management, including Active Directory Integration
- Includes advanced Event & Alarm management (Video Analytics, POS & more)
- And gives users Health Monitoring on all connected devices

*HikCentral software only. Monitor not included.

Hikvision Introduces Latest Technology - H.265+ Cameras

Hikvision announces a new line of cameras with its latest compression technology. H.265+ is able to greatly decrease the bitrate of the surveillance video so as to reduce the bandwidth and storage cost. Hikvision H.265+ is an optimized encoding technology based on the standard H.265/HEVC compression. It extends the application of the ultra HD video in video surveillance. This new line of cameras includes models with resolutions from 2 MP, 3 MP, 5 MP to 8 MP. Also new is the improved IR technology, EXIR 2.0, new Low-Light technology, 120dB WDR, expanded Smart analytics and IP67 protection. Hikvision continues to enhance its leadership in technology in the Art of Video Surveillance.

FEATURED PRODUCT

New 4-inch Indoor/Outdoor Value Series PTZ Domes

[DS-2DE4A SERIES >](#)

The DS-2DE4A Series of indoor/outdoor PTZ domes are a new breed of Value Series cameras that are designed to be as powerful as they are versatile. Featuring 2 MP and 3 MP models with 20x zoom lens and 50 meter IR capability, these cameras will provide protection in and around areas that are challenged by lighting conditions and require a discreet presence. Perfect for the entrances of buildings, these cameras feature an in-ceiling mount option and IP66 environmental ratings, to deliver superior performance in a compact package.

OVERVIEW

Enjoy HD with existing cabling

Based on HD-TVI technology, Hikvision's TurboHD™ products provide high definition (HD) video over coaxial cable at distances of up to 1500 feet.

Specially designed for analog users who want a high-definition surveillance system, this line allows users to enjoy HD without upgrading to IP or even replacing their existing cabling structures. Providing impressive image quality, the camera line offers incredibly durable, vandal proof products with features such as OSD menu via Up-the-Coax (UTC), EXIR illumination, motorized zoom and focus, and 120 dB WDR.

The TurboHD™ Plug and Play DVR products offer several models scaled for small to medium businesses with 4 to 32 channels. All TurboHD DVRs are tribrid—a true revolution in the professional surveillance market—supporting traditional analog (CVBS), HD-TVI, and IP cameras. Thanks to autosensing technology, installation is a breeze. These DVR products also provide H.264 and Hikvision's unique H.264+ video compression, and up to 48 TB of recording space.

Tribrid DVRs detect CVBS, TVI, and IP cameras

DS-7200HUI-Kx SERIES >

The new DS-7200HUI-Kx Series of TurboHD DVRs supports all the new 5 MP TurboHD cameras in models with 4, 8, and 16 channel inputs. Now, razor sharp images at 2592x1944 resolution can be displayed and recorded with HD quality. These tribrid DVRs can auto-detect a standard analog (CVBS), HD-TVI camera, and an IP camera input of up to 6 MP. They also support Hikvision's unique H.265+ video compression, and they include great features ranging from front panel controls to real-time recording and a 16 TB internal recording capability.
